Their mobile phones fleets are managed by our specialists!

The goal of mobility applications is to drive efficiency in your organisation, give your staff access to the information they need when they need it and ensure your people are available when your customers need them. The concept of one device for all your communications needs is here and

TTGroup Communications can incorporate all these features:

Incorporating your email

Accessing your data in the office via secure links while you are on the road

Having your phone move seamlessly from the office environment to the mobile network

Having your messaging and calls follow your device down the street or overseas

Having your messages read back to you or your voice messages delivered via email

Real time mobile tracking enabling you to manage remote worker productivity and capturing critical field data, including job activity, timesheets, and locations.

TTGroup Communications is positioned to supply and service all your corporate mobility requirements, including BlackBerry, PDAs and mobile accessories such as Bluetooth headsets and car kits. Ensure your mobile communications are a valuable, cost-effective business tool, integrating into your entire ICT strategy. Ask us about:

Telstra's Next G plans and benefits

Mobile phones, BlackBerry and accessories

For mobile broadband we use Telstra Next G Network to connect to the Internet; all you need is a mobile card or USB mobile card in your laptop. Email while you commute, stay across breaking news and access files on your office network – mobile broadband gives you the freedom to get the job done when and where you like.

The ultimate in wireless email for professionals on the go, BlackBerry is a mobile “push email” device allowing you to receive emails in real time. TTGroup can also assist with BlackBerry individual and enterprise server solutions. We also offer PDAs and iPhone.

Bluetooth mobile devices allow you the freedom of wireless connectivity. Talk to us today about our range of Bluetooth devices compatible with your mobile phone.

We also offer an insurance package for mobile devices that covers everything except loss for \$99 per annum.
