Improve School/Workplace Safety

TTGroup Communications understands that safety is paramount at schools, that is why we have found the solutions to help communicate, monitor and prevent situations.

Communication

Ensure your school can effectively and efficiently communicate information to staff, students and parents during an emergency. Mitel is an international provider of communication solutions, that will deliver maximum efficiency, measurable long-term value, along with a reputation for quality service, cost reduction and high customer satisfaction.

Mitel offers these tools to ensure the safety of your students and staff

- » Classroom phones
- » IP Paging and Broadcast
- » 5300 HTML Emergency Broadcast
- » Mass Notification via SMS, email
- » Malicious Call Tagging
- » Record-a-Call
- » Mobile phones become extensions of your phone
- » Auto attendant emergency override
- » Freedom and Mobility
- » TASS integration
- » Lockdown security procedures

Monitoring and Prevention

Ensure your school can monitor all areas in high quality no matter what happens. Mobotix is the leading pioneer in network camera technology and has made its decentralised concept has made high resolution video systems cost effective.

Mobotix offers these features to ensure the safety of your students and staff

- » Sharp and true colours at every scale using progressive scanning
- » Optimal exposure control with sun and backlight compensation
- » Dual Camera technology 2 in 1 (in picture technology or 180° panoramic view)
- » Long-term, high performance Terabyte recording
- » Simultaneous recording, event search and live viewing anywhere in the world from PC or mobile
- » Very low network load
- » Bridging of recording during network failures
- » Long term reliability with unique day/night camera technology
- » Lip-synchronized audio (live and recording); each camera is a video IP telephone based on SIP standard with automatic alarm call and remote control
- » MxControl Centre included: Dual screen technology with building plans, free camera positioning, event search, image processing, lens distortion correction and PTZ support

Engage Students

Keeping up with students and technology is hard, as it is constantly changing. At TTGroup Communications we have plenty of solutions to keep your school up to date with technology that will keep your students engaged longer in class.

Collaboration

LifeSize a division of Logitech, and provides quality High Definition video communications products that provide a productive, true to life experience that is cost-effective.

LifeSize provides students the ability to engage with the world and their environment:

- » Bring content into the classroom: Get specialised instructors to speak with students
- » Virtual field trips: Take educational field trips anywhere in the world
- » Expand curriculum: Share resources and course material with other schools or colleges
- » Encourage working as a team: Get your students to collaborate with other students from different locations

Empower Teachers, Principals and staff

TTGroup Communications understands that staff are always on the move and need to be contactable where ever they may be on or off campus, we can tailor the right communication solution for your school.
